Part III REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach, disclose, or suggest the claimed limitations of (in combination with all other limitations in the claim), a printer comprising first request means which directly makes a first request for obtaining a resource from a server; structural means for determining the structure of the resource based on a response directly from said server to said first request; setting means for setting pages to be printed based on the structure of said determined resource; second request means which generates a request message for requesting the transmission of partial data of the desired page to be printed after the pages to be printed have been set based on the structure of the resource from the server, means for generating print data on a second response to the second request, and printing based on the generated print data as claimed in claim 1. Similar features are claimed in claims 10 and 12. Therefore, claims 10 and 12 are allowable over the prior art of record for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
